This election is about our economic future and repairing the last nine years of poor decisions – a difficult task. Our harbor once was the economic driver of the North Coast and can be again. I'm endorsed by the Longshoremens Union Local 14, and Plumbers & Steamfitters Local 290 — men and women who actually work in our harbor. As a commissioner I will support our fishermen, shipping, recreation and conservation, and bring a new, cooperative attitude to the agencies governing our bay.

Please mail in your ballot before next Tuesday, November 6th.
